INSTRUCTIONS

1. First, thin down each of the blues by adding 25% water to 75% paint. This will help the paint flow into the lines a little smoother.
2. Load up the liner brush with Deep Sea by pulling the brush through the paint. Use the liner brush to add a line of paint in between each of the toes on the feet.
3. Use a detail brush to apply 2 coats of Deep Sea to each of the toenails.
4. Next, use the liner brush to apply Deep Sea to the top 1/3 of the lines in the belly.
5. Use the liner brush to apply Deep Sea to the 3 shorter lines on the top half of each wing.
6. Then, use the liner brush to apply Deep Sea to the lines on both sides of the tail.
7. Use the liner brush to apply Blue Lagoon to the middle third of the lines in the belly.
8. Next, use the liner brush to apply Blue Lagoon to the remaining two lines on the top half of each wing.
9. Then, use the liner brush to apply Blue Lagoon to the lines around the neck.
10. Paint the beak with 3 coats of Blue Lagoon using a detail brush.
11. Use the liner brush to apply Saffire to the remaining lines on the belly and the bottom of the wings.
12. Finally, use the detail brush to apply 2 coats of Saffire to the eye.

TIPS

- 1 coat of paint on the lines is sufficient.
- We aren't aiming for perfection, we are looking for that brush mark quality.
